Thieme's medical learning platform with fully illustrated downloadable medical textbooks

# MedOne Education – Direct access to Thieme medical textbooks

MedOne Education is a powerful medical learning platform covering every course in the medical school curriculum. By combining expert information with stunning visuals, the site serves as both a learning and teaching tool. Research made easy—at school, home, work, or on the go.

A license to MedOne Education helps prepare medical students starting day one for all of the challenges ahead of them and throughout their career. Users have access to illustrated full-color medical textbooks covering anatomy, basic sciences, clinical sciences, dentistry, osteopathic/physical therapy, radiology and USMLE® test prep.

### E-Books

It's never been easier to access Thieme's extensive collection of medical textbooks. Get the benefits of print books plus electronic features, where it's easy to expand images, watch videos, and write notes. New titles are automatically added as they are published.

### Media

When words aren't enough, the images and videos from all of our textbooks on MedOne are always at your users' disposal. They can quickly find and compare images in their browser or download images directly to a PDF or Power-Point file to enhance any presentation.

### MedOne app

The MedOne app lets users download and read offline e-books, journal articles, and watch videos on the go. It is designed to make browsing, accessing, and reading MedOne content simple and easy.

### Responsive Design

Automatic screen adaptation lets your users take MedOne along as an anyplace platform. No matter what features they need or what device they have, they can use web-enabled access to get the most out of the platform.

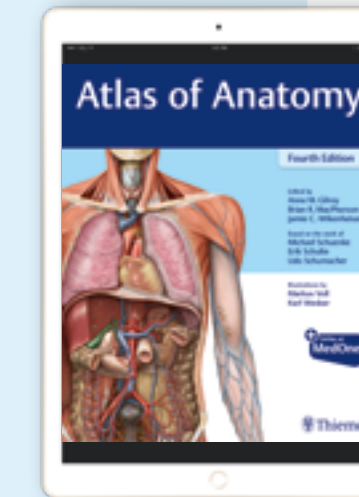

## Optional add-ons

Get additional access to Thieme's entire Anatomy collection

- Atlas of Anatomy (Gilroy)
- Anatomy for Dental Medicine (Baker)
- Anatomy: An Essential Textbook (Gilroy)
- Anatomy: Internal Organs
- Anatomy: Head, Neck, and Neuroanatomy

Contact your local sales office for more information.

### MedOne@Home

Users are no longer confined to the building with MedOne@Home offsite access. They can set up an individual username within your department's license, so all they need is internet access to view content, create notes, and highlight text.

### Search

There's a lot of content on MedOne Education. But don't worry: users don't have to sift through it to find the information they need. MedOne's intuitive search engine not only auto-fills terms but also filters the results, so users can instantly find what they want.

### MedOne Playlists

With the playlist feature, users can create customized content sets and collections. Using MedOne's resources, external links, or personal files, users can put together individual collections of information. Playlists can be kept private, shared with others from your institution, or shared with all MedOne users across institutions.

### System Requirements

- MedOne Education is supported by all leading browsers

### Licensing Options

- Available to institutions through the Internet
- Unlimited campus- or site-wide access controlled through your institution's IP address
- MARC records available for download
- COUNTER compliant usage statistics
- Shibboleth and OpenAthens compliant
- All licenses automatically receive updated content as new titles are released.
